

Estimate Request Form

Anaesthetic Fee Structure

The fee for the services of an anaesthesiologist is separate from the accounts sent by the surgeon and the hospital. The coding on the anaesthetic accounts is derived from the Fee Guidelines of the South African Society of Anaesthesiologists. Please supply us with the details requested below in order to receive a comprehensive estimate of cost to submit to your medical aid/insurer.

Please be aware that in most instances your medical aid/insurer will not cover the full amount claimed by your anaesthetist.
